Xiantao Zhibo Non-woven Products Co, Ltd
仙桃市志博无纺布制品有限公司

Enterprise Introduction

XIANTAO ZHIBO (ZB) NONWOVEN PRODUCTS CO., LTD,

Xiantao Zhibo (ZB) Nonwoven Products Co., Ltd, was founded in 2004 by a husband and wife team Zhao and Peng. Zhibo is located in the center of non woven industry, Xiantao City Hubei Province, China. 20 years later, ZB has remained a family business and continues to grow. The owners and professional management are involved in daily operation.

ZB is one of the very few vertically integrated non woven manufacturers in the world. Because of that, we are able to provide products with consistent quality and competitive costs. We are also able to provide customized specifications for different markets. ZB is specialized in non woven PPE products ranging from disposable protective clothing (isolation gowns, coverall, lab coat, scrub), Class 1, 2 and 3 masks, shoe covers, beard nets, bouffant and sleeves.

ZB has over 600 workers and the main workshop covers over 210,000 square feet. ZB has obtained CE, FDA(510K) for Europe and North American markets.

In addition to the United States, Canada, Germany, France, Italy, Spain, Mexico, ZB has also expanded our sales network to other countries and regions.

PPE MATERIALS

SPUNBOND POLYPROPYLENE SBPP

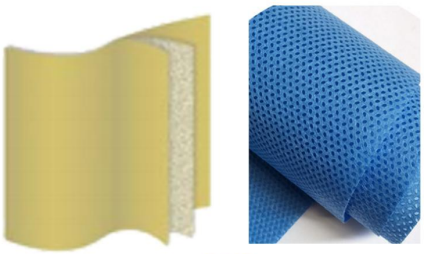

For basic coverage, this non-woven fabric bondsfibers togetherto form a single layer.

SBPP

SMS MATERIAL

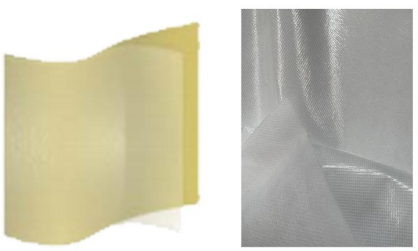

Spunbond/meltblown/spunbond (SMS) is a multi-layer fabric composed of inner layers of melt blown polypropylene between outer layers of spunbond polypropylene.

SMS

COATED POLYPROPYLENE (POLY-COATED)

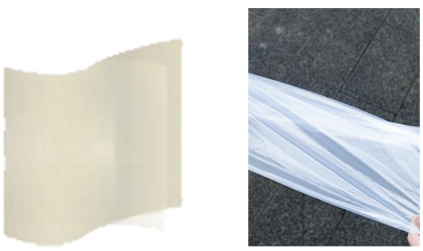

Soft, spunbond polypropylene is coated with a layer of polyethylene (plastic) film.

PP+PE

POLYETHYLENE FILM

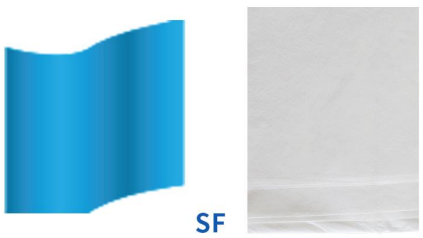

Polyethylene (plastic) film is composed of a single layer of film and depending on thickness can be appropriate for low to moderatefluid exposure.

PE OR CPE

MICROPOROUS

Microporous fabric is composed of a soft non-woven inner layer, laminated with breathable microporous film
